Maritime and Port Logistics*

Course delivered:

**Wednesdays (1pm-5pm) and Thursdays (9am-1pm)
From 5th May-22nd July 2021**

*eligibility criteria overleaf

An Introduction to Careers in Maritime and Port Logistics

Hugh Baird College, located in the historic working docklands of Liverpool, has joined forces with the Marine Society & Sea Cadets to provide an introductory short course about working in the maritime industries.

This level 3 intensive course is aimed at providing an understanding of the maritime sector and its associated occupations. Core units will introduce an overview of how the maritime sector operates, various vessel types and the regulations that apply to the industry. Optional units cover port services and operations, commercial shipping operations, maritime geography and trade, vessel stability and practical boat handling.

The course will enable you to make informed choices about starting a career in maritime. For those going on to further study, this course will prepare you for the Institute of Chartered Shipbrokers Diploma in Understanding Shipping and professional diplomas with Lloyds Maritime Academy. This course could also lead to an apprenticeship as a Port Operative, Port Agent, Maritime Operations Officer or Officer of the Watch.

The course is part-time and delivered over 12 weeks offering a mix of practical training at Crosby Lakeside Centre and classroom-based theory at Port Academy Liverpool
(part of Hugh Baird College).

***Entry requirements**

This course is fully funded and open to anyone residing in the UK aged 19+ currently NOT holding an existing level 3 qualification. This includes anyone who is currently unemployed or working but looking to change careers or enhance an existing career in the maritime sector with a level 3 qualification.

How to apply

For further information and booking enquiries call Deborah White on 0151 353 4576 / 07717 453286 or email deborah.white@hughbaird.ac.uk
